ABOUT ME

As a recent graduate with a diploma in Software Development, with no experience in my industry. I am eager to apply the skills and knowledge that I have gained during my studies. I am dedicated to my craft and continuously work on improving it. I have numerous individual projects that I have created, with the proficient languages (Python,HTML,JavaScript,CSS). I am excited to bring my passion, drive, and strong foundation in software development to a dynamic team, and I look forward to contributing to meaningful projects that drive innovation and growth.

WORK EXPERIENCE

INTERN DESIGNER | *Gods Followers | Brakpan | Apr 2021 - Jun 2023*

I have extensive experience in designing and managing various aspects of the church communication and events. My role involved creating visually appealing and organized church programmes **I also designed event posters that were eye-catching and effectively** conveyed key details of the event. In addition to graphic design, I was responsible for **managing the church's social media presence**. This included creating, engaging and relevant content, posting regularly across platforms like Facebook.

VOLUNTEER | *Sibusiso | Brakpan | Feb 2021 - Apr 2021*

I briefly assisted in administrative tasks like filing and organizing records, and logging marks on Microsoft Excel . My role also came with creating alphabetical class lists to ensure that student information was accessible .
