PROFESSIONAL PROFILE

A dedicated and detail-orientated Software Development graduate from Gauteng City College, with a strong foundation in programming, software engineering principles, and data structures. My academic experience provided me with a comprehensive understanding of the following technical skills:

- **JavaScript** (5months) – developed a working understanding of JavaScript concepts and syntax

- **Python** (6 months) – engaged with python as part of learning to code ,using resources to understand basic programming principles

- **HTML** (12 months) - involved in work during my undergraduate and internship

- **CSS** (8 months) - gained experience with CSS for styling web interfaces , including using CSS frameworks like Material UI

I have a solid theoretical and practical understanding of development languages, supported by a strong foundation in logical thinking and quantitative analysis. I apply these skills effectively in designing and developing ground breaking software solutions. Additionally with my creative mindset and a passion for continuous learning, I am currently enhancing my technical expertise by completing JavaScript basic algorithms and web development fundamentals on Freedcodecamp as well as React Js Fundamentals on Alison

WORK EXPERIENCE

Job shadowing Spur Lakeside Mall (March 2015- March 2015)

Overview: I job shadowed at Spur Lakeside Mall a well-known family restaurant as part of a school assignment to expose us into level entry jobs, I had to assist and job shadow a waiter/waitress and understand their way of working as a form of experience.

Key Responsibilities
- Worked closely with kitchen and bar staff to ensure smooth services.
- Monitored order progress and ensured timely delivery to tables
- Present bills, accept payments, and give accurate change
- Greet guests warmly and ensure a pleasant dining experience

----

Volunteer | Tsakane Secondary (November 2019)

Overview: This was an initiative that I took to try and get some experience in the education sector, it is an unofficial step towards getting experience without receiving an incentive.

Key Responsibilities
- Assisted in administrative duties as per instructions such as filing and the preparation of study material.
- Ensured the distribution of school communications between the teacher and the students
- Collaborated in the compiling of past papers and academic activities

---

Intern Designer | Gods Followers Ministry October 2021- November 2022)

Overview: My role involved creating visually appealing
and organized church programmes. I also designed event posters that were eye catching and effectively
conveyed key details of the event
Key Responsibilities

- Gained exposure to web content management and digital strategy through the coordination of online event promotions
- Designed visually engaging digital content for the church ,such as posters and church programs
- Responsible for the management of the church's social media presence (primarily Facebook)
